

IN THE DRAWINGS:

Please amend FIGS. 1-3, as indicated in the attached drawing sheet including corresponding mark-ups. More specifically, the applicants have amended the drawings to illustrate a linear axis along which the multi-band antenna extends. The amendments are believed to address the objection to the drawings in the most recent Office Action. The applicants would propose deferring the filing of formal drawings including the proposed revisions, until and if, the application is deemed to be in condition for allowance.
